Four Square Vocabulary Review

Project the game board onto your whiteboard or chalkboard. Write vocabulary words on each square and cover with paper squares. Students use dry erase boards or paper to create a 4 square grid. Give numbered clues i.e. Box #1 is a synonym for the word intelligent. After you have given all four clues, reveal the answers. Students keep track of how many points they earn on each round.

You could also enlarge the game board using a poster maker and laminate to display on front board. This could also be placed at a literacy station to review vocabulary words.
